

enabling Simpa to track energy consumption

Simpa Networks sells solar powered inverters to households and shops in rural India.

Business Challenge

- Simpa wanted to track energy consumption of their solar power units in real-time, so that they could correctly charge customers.

Our Solution

- With the help of ViTM Managed IoT Connectivity Platform, we securely connected the units that they sold to customers through a private APN
- We also provided Simpa with our highly resilient IoT SIM Connectivity solution that could survive high operating temperatures

Business Impact

- Our Managed IoT Connectivity Platform gave Simpa complete visibility of their inverters and enabled them to track energy consumption in real time. As a result, they could charge their customers correctly, thus streamlining their revenues
- Our durable IoT SIM Connectivity solution ensures that Simpa had uninterrupted access to their remote units
- With our nationwide coverage and Managed IoT Connectivity Platform deliver seamless connectivity and complete control of their every IoT SIM
