

helping a business stay always-on

Upgrading business connectivity to ensure faster response to clients

A global provider of information, insights and technology, drives innovation and performance in financial markets, enabling the financial community to trade smarter and faster, overcome regulatory challenges, and scale intelligently.

Business Challenge

- They were facing issues with their connectivity solutions. Their links would constantly peak in performance due to insufficient bandwidth
- This caused a delay in not only their response but also in the closure of financial transactions. This in turn affected their service parameters with external clients

ViTM business Solution

- We monitored their monthly link performance and noted the performance parameters
- We then proposed to upgrade their L2 MPLS VPN from 50 to 100 Mbps – both at hub and spoke locations

Business Impact

- With our solution, they are now able to respond to clients across the globe faster
- They also ensure that their service parameters are always achieved local reach
