

where everything is managed

Monitor and control your
utility assets to make
data-driven decisions

Our **Smart Utility solutions** reimagine the way utilities operate and help them unlock business insights that can streamline business operations and improve customer experience. Now remotely monitor, manage, control your utility assets and metering systems through our Smart Utilities solutions and network which brings about cost efficiency, reduces leakage and provides greater asset visibility.

range of Smart Utility Solutions

Remote Transformer Monitoring

With this solution, you can continuously monitor your transformer's health online. It is important to have an early detection of transformer failures. This helps you resolve issues faster and avoid unnecessary maintenance or even potential unplanned outages. With this, you can consistently improve operational efficiency and reduce maintenance for your transformers.

Advanced Metering Infrastructure (AMI)

This integrated system of smart meters, communications networks, and data management systems enables a two-way communication between you and your utilities. This solution facilitates remote meter reading and billing, track demand & response, peak load & outages management, provide energy consumption data in real-time or on demand basis. This makes us a one-stop-shop for your Connectivity, Cloud, Networking, Security & Managed Service needs that allows you to reap the benefits of AMI while maintaining the stringent SLAs.

benefits for business

Maximise Revenue: Increase in revenue per meter per month after installation of smart meters

Predictive Maintenance: Predictive analytics on transformer health to propose a maintenance schedule

Reduced AT&C Loss: Significant reduction in AT&C* loss through improved billing efficiency and collection efficiency

Real-time Outage Detection: Real-time identification of fault and its type, for faster resolution

Hassle-free Secured Connectivity: Secured IoT connectivity deployment in distributed geographies

*AT&C – Aggregate technical and commercial
