2. In terms of Section 232(2)(c) of the Companies Act, the Board is required to adopt a report explaining the effect of the arrangement on each class of shareholders, key managerial personnel, promoters and non-promoter shareholders of the Company, laying out in particular the share exchange ratio, specifying any special valuation difficulties. Notes to Financial Statements

Fair Value Estimation

Ind AS 113, 'Fair Value Measurement' requires classification of the valuation method of financial instruments measured at fair value in the balance sheet, using a three level fair-value-hierarchy (which reflects the significance of inputs used in the measurements). The hierarchy gives the highest priority to un-adjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and lowest priority to un-observable inputs (Level 3 measurements). The three levels of the fair-value-hierarchy under Ind AS 113 are described below:

Level 1: Observable inputs that reflect quoted prices (un-adjusted) for identical assets or liabilities in active markets.

Level 2: Inputs reflect quoted prices for identical assets or liabilities in markets that are not active, quoted prices for similar assets or liabilities in active markets, inputs other than quoted prices that are observable for the asset or the liability, or inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3: Un-observable inputs reflecting the Company's own assumptions incorporated in the valuation techniques that are used to determine the fair value. These assumptions are required to be consistent with market participant assumptions that are reasonably available.

The above tabled financial assets and liabilities are measured at amortised cost. The carrying amounts at amortised cost of Cash and cash equivalents, borrowings, trade payables and interest accrued on borrowings approximate their fair values.

Note 13

Taxation

Currently, the Company does not have any business operations and hence, it does not have any tax losses which can be carried forward. Accordingly, no deferred tax asset has been recognised on the same.

Note 14

Earnings per share

Basic and diluted earnings/(loss) per share is calculated by dividing the profit/(loss) attributable to equity holders of the Company by the weighted average of equity shares outstanding during the period

Particulars	For the period ended	For the period ended
	December 31, 2018	December 31, 2017

This disclosure document has been prepared in connection with the Scheme pursuant to Regulation 37 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended.

SCHEME DETAILS

The Scheme involves the demerger of Fibre Infrastructure Undertaking of Vodafone Idea Limited (VIL/ listed entity) into Vodafone Towers Limited (VTL), a wholly-owned subsidiary of VIL.
