

serving perfect experiences with a connected cooler

A leading beverage corporation that specialises in manufacturing, retailing and marketing of non-alcoholic beverages, concentrates and syrups.

Business Challenge

- The customer needed a solution that could help them remotely monitor and maintain their beverages within a fixed temperature range

Our Solution

- We helped them develop a 'Connected Cooler'. Our Integrated IoT Solutions along with MultiSense and Door Sensor enabled these Connected Coolers to track the opening and closing of doors, movements within the cooler, temperature and inventory status
- It also included a console light up alarm

Business Impact

- With this solution, the customer is now able to remotely monitor and maintain beverage temperatures in real-time. This ensures that beverages stay at the optimum recommended temperature for consumption
- This helped the brand offer a differentiated and standardised customer experience across locations
