Mumbai, 10<sup>th</sup> December, 2022: With Christmas and New Year around the corner, Indian travelers are set to take off on vacation to their favourite foreign destinations. Travel trends indicate that 90% of the tourist traffic from India is to popular destinations\* like US, European countries (incl UK, France, Italy, Germany, Greece etc.), Turkey, Dubai, Singapore, Thailand, Australia, New Zealand and others. Indians travelling to these destinations are **looking for a "truly unlimited connectivity experience with no riders."**

For all such travelers, **Vi is offering 'Truly Unlimited Data and Voice Experience' on its International Roaming (IR) packs** with no hidden condition of 'speed throttling' which results in the streaming experience getting severely hindered after users exhaust their data quota. No other IR roaming service from any other operator in India offers Unlimited Data without speed throttling beyond defined data limits.

Vi IR packs for postpaid users offer validity from 24 Hrs to 28 Days and "no limit" on Data quota for popular travel destinations and ensure that users continue to get a seamless experience while streaming, video calling or sending photos and videos to their loved ones.

Additionally, Vi's partnerships with the best service providers in the network destinations ensure that Vi users get connectivity wherever they travel. The '**Always On**' feature on all Vi Postpaid Roaming Packs ensures that customers do not get charged exorbitant rates while on international roaming even after the expiry of the subscribed pack.
