

## Press Release

Ahmedabad/Rajkot/Surat/Vadodara, 30<sup>th</sup> July 2025

# Vi launches 5G services in Ahmedabad, Rajkot, Surat and Vadodara

Leading telecom operator Vi today announced the launch of its 5G services in four cities of Gujarat – Ahmedabad, Rajkot, Surat and Vadodara starting tomorrow. This expansion is part of Vi's ongoing 5G rollout across 23 cities, in its 17 priority circles, where it has acquired 5G spectrum.

Vi 5G is also going live in four other cities tomorrow including Chhatrapati Sambhajnagar, Nashik, Kozhikode and Malappuram. Prior to this, Vi has already launched 5G services in nine cities including Mumbai, Delhi-NCR, Bangalore, Mysuru, Nagpur, Chandigarh, Jaipur, Sonipat and Patna.

Vi users in Ahmedabad, Rajkot, Surat and Vadodara with 5G-enabled devices can access Vi 5G services starting tomorrow. As an introductory offer, Vi is providing unlimited 5G data to users on plans starting from ₹299. Customers can enjoy high-definition streaming, gaming, video conferencing, faster downloads, and real-time cloud access.

Commenting on the launch, **Naveen Singhvi, Business Head – Gujarat, Vodafone Idea**, said: "As we launch Vi 5G in Ahmedabad, Rajkot, Surat and Vadodara, we are excited to bring the future of connectivity to the four key cities in Gujarat. With our next-gen 5G alongside our robust 4G services, we aim to provide more options and an enhanced experience to our users. We are committed to systematically expanding our 5G footprint across Gujarat, in line with growing demand and 5G handset adoption."

To ensure a superior 5G experience in Gujarat, Vi has partnered with Nokia and Ericsson to deploy advanced, energy-efficient infrastructure and implemented AI-powered Self-Organizing Networks (SON) to automatically optimize network performance.

In parallel with its 5G roll out, Vi has also significantly upgraded its 4G network in Gujarat to deliver enhanced coverage, faster data speeds, and overall superior user experience. Since March 2024, it has successfully deployed 900 MHz spectrum on more than 6,300 sites, as well as upgraded 900 MHz spectrum capacity across more than 1100 sites, to strengthen indoor coverage. Vi has also added 2100 MHz spectrum to more than 4900 sites. Additionally, 1500+ new sites have been added across the State. These network augmentations implemented over 15 months between April 2024 and June 2025 have led to 35 percent capacity increase in Gujarat, underscoring Vi's commitment to deliver consistent and high-quality connectivity across urban and rural areas.

Vi remains committed to building a future-ready network that meets the evolving digital needs of consumers and businesses. For more details on availability, pricing, and supported devices, visit: <https://www.myvi.in/5g-network>
