

more **scalability,**
reliability and
security for your
IT infrastructure

With businesses, like yours, increasingly relying on data to improve processes and build better offerings, they need to be well-equipped to efficiently handle and manage large volumes of data so that it's easily accessible.

However, managing an in-house data center while safeguarding against security threats, can prove to be difficult.

With **Vi™ Infrastructure Colocation powered by CtrlS**, your business gets access to world-class Rated-4 data centers from across the country, to house your network & IT infrastructure. This solution takes care of all aspects of your IT infrastructure by providing an optimal, secure and well-connected environment, including rack space, power, cooling, network connectivity, cross connects, physical security for the servers, storage and networking equipment - at a fraction of cost and complexity.

This solution is apt for organisations with high investments in IT and data centre equipment

why choose **Vi™ Infrastructure Colocation?**

- Access to our data centers across Mumbai, Bengaluru, Noida & Hyderabad with a range of services like rack space, caged colocation and power
- Rated-4 facilities as per TIA 942 standards operating at the industry lowest PUE
- Redundantly connected carrier neutral facilities, zero last miles
- Option to select from Rated-4 certified data centres with innovative and power-efficient cooling backed by power systems, network facilities and physical security measures
- 9 zone security in line with Rated-4 standards, that provides unparalleled security measures
- Additional product options such as managed hosting service, caged colocation and much more

what gives it an **edge**?

Rack/Server Space - Multiples of U/Standard Racks, IT Hardware, IP addresses, cross connects and more

Accessibility - Power, bandwidth, patch panels and more

Managed Services - Remote hand support, 24/7 support, OS management, DB management, Network management, monitoring services amongst others

Security & CCTV - 9 zone security layer, CCTV monitoring, Caged servers, biometric access controls and more

Compliance and certifications - ISO 27001, ISO 27017, ISO 27018, ISO 20000, ISO 22301, ISO 9001: 2015, AICPA SOC, AICPA SOC 2, MEITY, PCI DSS, CSA

how does it benefit your business?

- Rated-4 Facilities leads to more redundancy & higher uptime
- Industry lowest PUE results in reduced operational expenditure
- Data centers are available across 4 cities i.e Mumbai, Noida, Hyderabad & Bangalore
- Superior service backed by enterprise grade SLA's
- Managed services available with end-to-end life cycle management of the infrastructure
