

your **one-stop solution**
for end-to-end device
lifecycle management

Managing multiple business devices can be complex, time-consuming, and costly.

Vi Business Managed Mobility simplifies it all, by handling every stage of the device lifecycle.

From procurement and configuration to delivery, support, and retirement, this solution takes care of it all from start to finish. This means reduced IT overheads, improved device uptime, and optimised total cost of ownership.

So whether you're managing 10 devices or 10,000, our solution gives your business the means to stay productive, efficient, and ready to scale – with the ease of outsourcing, that streamlines operations and cuts costs.

Here's how it works:

Device Procurement

Select from a wide range of device options from leading OEMs to suit your business needs

Connectivity and Security

Mobility solutions, MDMs and business manager deployment

Staging and Kitting

Installation of accessories/device configuration and app enrollment

Logistics Management

PAN India delivery, reverse logistics, pick up and drop between business locations and OEMs

Single Window End-to-end Managed Mobility Solution

Dedicated support and service desk with an insurance & warranty option

How does it benefit your business?

Single touch point for complete device lifecycle management

Business continuity

Seamless incident management

Increased business productivity

Reduced cost of ownership

Avail CapEx/lease models as per business needs

Why Vi Business?

Because more than a vendor, you need a partner.

Single Touchpoint

One partner to manage devices, services, and support.

Pan-India Reach

Seamless 24x7 support and service across every business location.

Proven Expertise

Deep experience in managing large-scale, multi-device deployments.

Secure & Compliant

Enterprise-grade security with full compliance built-in.
